## WEBSITES, PORTFOLIOS AND PROFILES

- <https://www.linkedin.com/in/narendr-a-jakka-6671a2160/>
- <https://narendrajakka.netlify.app/>

Dynamic Frontend Developer with nearly 2 years of experience in creating user-centric web applications that are both visually appealing and technically robust. I excel at turning complex problems into simple, elegant solutions, using tools like React.js and modern web technologies. My work is driven by a passion for design and a commitment to high-quality code, ensuring that each project not only meets but exceeds user expectations. I enjoy collaborating with diverse teams, bringing creative ideas to life while continuously exploring new trends and technologies to enhance the digital experience.

## EXPERIENCE

December 2022 - Current

**Software Engineer** *Netenrich Technologies Pvt Ltd*, Hyderabad, India

- Developed and maintained responsive web applications using React.js, HTML5, CSS3, and JavaScript
- Collaborated with designers, backend developers, and product managers to ensure the delivery of high-quality user interfaces
- Implemented state management using Redux to optimize and manage the application state effectively
- Utilized Ant Design to create consistent and reusable components across the application
- Actively participated in Agile development processes, including daily stand-ups, sprint planning, and retrospectives
- Gained hands-on experience in version control using Git and GitHub, ensuring smooth collaboration across the development team
- Enhanced application performance through code optimization, resulting in reduced load times and improved user experience
- Conducted code reviews, provided constructive feedback to peers, and adhered to best practices in coding standards
- Integrated RESTful APIs to display dynamic data, ensuring seamless interaction between front-end and back-end systems

## EDUCATION

10/2022

**Post Graduate Diploma Computer Science**

**Centre For Development Of Advanced Computing**, Hyderabad, India

## PROJECTS

- **PetBreeds - Bring Happiness to your Home**

The main purpose of creating this website is to sell pets and provide different types of services like pet foods and accessories. Using this website retailers can advertise their pets and supply to the customers easily. Platform - MERN
